Section Chair Report

I hope this newsletter finds you better than ever. We are finalizing plans for our 2021 State Conference which will be our first in person event since Covid. Our conference title is “It’s a New Day”. I know you will find inspiration for your work life as well as find strategies to focus on YOU! The conference opens with Stephanie Arnold. Stephanie is an amniotic fluid embolism survivor. I heard her speak at AWHONN National in New Orleans and was so impressed by her story. I still think of her in my bedside practice today. Our closing keynote is Dr Marianne Neifert. You might know her as “Dr Mom” I’ve heard her very down to earth talks on breastfeeding. This time she will be sharing her wealth of experience in navigating change. The entire day is geared to bring you the most up to date initiatives and research to care for patients wherever your clinical practice is.

I hope you can attend our “Spinning Babies” preconference. My friends who have taken this class have raved about it. It brings an in depth understanding of labor physiology combined with positioning and movement techniques. This will be the first time I am taking the class and I am really looking forward to upping my game as a labor nurse. We have space for 36 participants, and you must be registered for the state conference to register. The link for registration is in the Eventbrite registration for the state conference. <https://www.eventbrite.com/e/co-awhonn-2021-state-conference-its-a-new-day-tickets-145357681739>

We continue our Zoom meetings for CO AWHONN meetings in the meantime. Our next meeting will be Thursday July 29th at 7PM. We will hear one of the Maternal Mortality Case Studies from last November’s conference. Dr. Zachary Kent from Vail Health will present his case study detailing the challenges of managing a high-risk pregnancy with Class F diabetes. This is a case that touches many facets of healthcare- coordination at both the rural and tertiary sites, supporting the patient with complicated and costly medication regimens and supporting our immigrant population. There will be time for Q&A and 1 CE will be provided. Following will be our AWHONN meeting and an opportunity to win a Kate Spade clutch raffled for all AWHONN members attending. This meeting will be held by Zoom and all registered attendees will receive a link for the meeting via email. <https://www.eventbrite.com/e/july-co-awhonn-meeting-maternal-mortality-case-review-tickets-160666203941>

Section elections begin in July so be watching your email from AWHONN National. We will be electing a new Secretary/Treasurer and a new Section Chair. Elections begin July 26th- August 16th.

Did you know that the Colorado section gets different reimbursement for E members vs Full Members? For a full member, the section receives \$24 per year and for an e-member it is \$9. We are seeing many members choose the e-membership now. Would you consider renewing as a Full member? Your dues go directly to support our local activities. Look for a special from AWHONN to convert your membership in August.

I simply cannot wait to see you in September! Thank you for all you do to support Colorado Mom’s and Babies.

Isabelle Campanella MSN, RNC
Colorado AWHONN Section Chair

Legislative Happenings

Hello Colorado AWHONN!

I have been busy working with Izzi Campanella working to have a Maternal Awareness Day dedicated in Colorado! We are working with the Colorado Perinatal Care Quality Collaborative to help us with spreading the word and supporting us. We are meeting monthly and hoping our first day will be 1-23-22. We are still figuring out how we can remember the women who lost their lives during childbirth or had morbidity due to complications. If you are interested in being a part of the planning for this, please let me know. This will be brought before the Colorado legislators to pass a resolution to make this day Maternal Awareness Day every year! Leslie Herod will be helping us introduce this to the legislation. We have support of National AWHONN and are going to ACOG and ACNM for their support as well. More to come on this initiative. Contact me if you are interested in helping us celebrate women on this day!

I was lucky to attend the Virtual March for Mom's. It was an amazing day, of several individuals telling their stories. Go to this website to learn more <https://marchformoms.org/> It started with US Rep. Lauren Underwood (D-IL-14), co-founder and co-chair of the Congressional Black Maternal Health Caucus, who is the lead sponsor of H.R. 959—the Black Maternal Health Momnibus, which would contribute to ending preventable maternal mortality and severe maternal morbidity in the US and reduce disparities in maternal health outcomes. I was very inspired by all of the speakers and encourage you all to visit the March for Moms website to see how you can email your Representative/Senator to tell them to vote for the Momnibus. They are not experts in Women's Health, YOU ARE! They will listen to a nurse.

Mic Zywiec MSN, RN

Legislative Coordinator, Colorado

Membership Matters

COLORADO AWHONN SECTION

Membership Updates

Sarah Mangat & Kami Mogenson: Membership Co-ordinators

Benefits of FULL Membership

- Annual AWHONN Convention Discount
- Access to AWHONN scholarships
- Access to AWHONN awards
- Voting in National & Section Elections
- Participate in the Emerging Leaders Program (ELP)
- Serve on an AWHONN Committee
- Hold Office (National & Section Level)
- Live Education courses & program discounts
- National Research Projects & Grants
- Become an AWHONN Fetal Heart Monitoring Instructor

E-Member? Or Full Member?

To be or not to be? That is the question when signing up or renewing AWHONN membership.

To be a full member or not. The e-membership option is significantly cheaper. On the surface that it. But it lacks the richness of opportunities in the full membership option.

The benefits of full AWHONN membership can be staggering. Listed to the left are all the benefits that are only available to full members. Discounts for an array of educational products and in-person

events (including conferences!).

Even greater are the benefits in promoting career and personal growth. Want a chance to hone your leadership development skills – apply for the Emerging Leaders Program. Want to get more involved and meet like-minded people? Serve on an AWHONN Committee or get nominated to hold office. Or become a FHM instructor!

This year at the annual state conference – we will be giving out a prize to the member who can get the most full members to join! So don't wait, sign up your friends and colleagues!

UPCOMING EVENTS

- CO AWHONN State Conference
- Sept 9th & 10th, 2021
 - Fort Collins Marriott
 - Spinning Babies™ Workshop! Limited spots!

ADAPT

Innovate

Evolve

Communications Coordinator

Hello Colorado AWHONN Chapter Members,

Welcome to summer!

As with life, changes occur and I'm faced with the opportunity of evolving my role within AWHONN. Unfortunately, that also means I'll be stepping away from my role as AWHONN's Communication's Coordinator.

As the communication's coordinator you'd be responsible for:

- Managing CO AWHONN's Facebook page
- Developing these quarterly newsletters
- Managing the CO AWHONN website

If you or someone you know would be interested in assuming the role of the Communication's Coordinator, or participating more in Colorado AWHONN in any capacity, please reach out to me or Isabelle Campanella.

I'll miss this role but I look forward to growth and advancement!

Evidence-Based Practice

Following Enhanced Recovery After Cesarean (ERAC) Guidelines Improves Maternal Outcomes

ERAC helps women having a cesarean delivery with evidence-based care utilizing multimodal therapies to optimize recover and improve maternal outcomes. The multimodal therapies can be initiated in the operating room by implementing local anesthetic such as a wound infiltration device and a regional block such as spinal with preservative-free morphine. The postpartum elements aim to minimize post-cesarean metabolic stress. One important element is to promote resting periods. Optimizing sleep and rest and limiting unnecessary interruptions is of value. An example would be to cluster interventions (e.g. vital sign, fundal checks, and scheduled oral analgesics). This is of importance as evidence suggests fatigue can potentially negatively impact cognitive functions, increase depression, worsen pain, and may impair maternal-infant bonding experience. Use a multimodal analgesia protocol in the postoperative period. This would include scheduled (not PRN) non-steroidal anti-inflammatory drugs (NSAIDS), acetaminophen, and a wound infiltration device. For example, scheduled acetaminophen 650 mg -1000mg every 6 hours. Ibuprofen 600mg would be every 6 hours after Ketorolac. Oxycodone is to be administered only for breakthrough pain. By utilizing multimodal analgesia, you will reduce pain, improve mobilization, reduce in-hospital opioid use, and decrease opioid use after the patient is discharged. It is known that opioid use is associated with nausea, vomiting, sedation, fatigue, ileus, constipation, and possible misuse/addiction risk. ERAC studies find that multimodal analgesia which include NSAIDS and acetaminophen can decrease opioid use and side effects by 30-50%. This is of value as the American College of Gynecology and Obstetrics (ACOG) found that 1 in 300 opioid-naïve patients exposed to opioids after cesarean birth will become persistent users of opioids.

On the Labor and Delivery Unit at the Colorado Fetal Care Center, ERAC multimodal therapies were initiated in May 2019. Our unit has decreased opioid use by more than 50% in the first 48 hours of the postoperative period. Neuraxial morphine and a wound infiltration device were initiated in the operating room along with scheduling acetaminophen and NSAIDS every 6 hours in the postoperative period. Our unit has also implemented cluster care (e.g. vital signs, fundal checks, and scheduled acetaminophen & NSAIDS) every 6 hours. This has allowed our new moms to have optimal sleep and rest. ERAC guidelines have helped to provide our patients with evidence-based, patient-centered care utilizing a multidisciplinary approach to optimize recovery from cesarean delivery and improve maternal outcomes.

Please reach out to me with any questions or requests for upcoming EBP articles!

Northern Chapter

Hello CO Northern Chapter,
Diaper disparity is a major concern not just globally, but right here in the United States!

Did you know that 1 in 3 American families struggle to afford enough diapers? In Colorado, approximately 67,536 of its 202,608 children under the age of 3 were affected by a lack of diapers, and these numbers have gotten worse during the pandemic. Diapers typically cost families \$70-80 per month per child, and federal aid programs, such as WIC, do not cover the cost of diapers.

This is why supporting Colorado diaper banks is increasingly important. We have decided to turn our philanthropic focus of our CO AWHONN State Conference to collecting diapers for The Nappie Project and the Food Bank of Larimer County. Please consider collecting diapers at your hospital to help make an impact on diaper disparity in Northern Colorado.

I am really excited that Fort Collins is hosting our State Conference in September! Sign up early to get early bird pricing. Looking forward to gathering in person and learning together! It's going to be an amazing conference!

Samantha Smeak
Northern Colorado Chapter Coordinator
Samantha.Smeak@uchealth.org

Denver Chapter

What is AIM?

The **Alliance for Innovation on Maternal Health (AIM)** cooperative agreement improves women's health and maternal health outcomes by addressing the quality and safety of maternity care is an important facet in the health care paradigm.

AIM seeks to reduce maternal deaths and severe maternal morbidity by engaging provider organizations, state-based health and public health systems, consumer groups, and other stakeholders within a national partnership to assist state-based teams in implementing evidence-based maternal safety bundles.

What are maternal safety bundles?

Maternal safety bundles are a set of small straightforward evidence-based practices, that when used collectively and reliably in the delivery setting, have improved patient outcomes and reduced maternal mortality and severe maternal morbidity.

AIM bundles included topics related to the following topics:

- Obstetric Hemorrhage
- Severe Hypertension in Pregnancy
- Safe Reduction of Primary Cesarean Birth
- Obstetric Care for Women with Opioid Use Disorder
- Cardiac Conditions in Obstetrical Care-In Development
- Postpartum Discharge Transition Bundle-In Development

What is CPCQC?

Colorado Perinatal Care Quality Council has government and grant funding to provide broad-based leadership support in coordination of statewide perinatal health care delivery. CPCQC has public funding to support the **implementation of bundles** at the individual hospital level.

Currently, there are three perinatal initiatives supported through CPCQC:

- SOAR: **S**upporting Vaginal Delivery for Low **R**isk Mothers
- AIM Substance Use Disorder Learning Collaborative
- CHoSEN: Colorado Hospitals Substance Exposed Newborn

How does this relate to me?

All three organizations are working together to provide support and resources committed to reducing maternal morbidity and mortality in Colorado. Here's what you can do:

- Attend the CO AWHONN state conference to learn more about the AIM bundles
- Go to the AIM website to access the bundles. They are easily accessible, complete with amazing, useful tool and FREE!!!

[AIM bundles](#)

Encourage your hospital to join one of the CPCQC initiatives (for free) and get started today!

Amy Dempsey, DNPc, MSN, RNC
AWHONN Denver Chapter Coordinator

Western Slope Chapter

Hello Western Slope Chapter Members,

I don't know about you but we've seen a HUGE baby boom over the past two months! I guess everyone sitting at home quarantining decided to add to their families!

I will be expanding my role with AWHONN either at the state or national level. Unfortunately, that means I won't be able to continue my role as the Western Slope Chapter Coordinator for Colorado AWHONN.

So, if you or someone you know would like to step into this role please reach out to me or Isabelle Campanella. We'd love to hear from you!

I'll miss this role but I look forward to growth and advancement!

Rainy Tieman DNP, MSN/Ed, RNC-MNN, RNC-OB, C-EFM, C-ONQS

Rainytieman@gmail.com

Southern Chapter

Hello Colorado AWHONN members from the Southern Colorado chapter. I hope you all have had a good Spring and that you're getting to connect with friends and family that you may have been separated from during the pandemic. Speaking of the pandemic, there was an interesting editorial from Kathleen Simpson in the latest edition of The American Journal of Maternal/Child Nursing (MCN) on the impact of COVID-19 on our patient population and on us as the nurses who have cared for them. We all know that OB patients have been victim to this disease with the rest of the population, but there are already several studies looking at the severity of the illness in pregnant women. The good news from those studies was that about one-half of the OB patients were asymptomatic and another 40% had mild or moderate symptoms, leaving a small percentage to suffer with the most severe illness and complications to their pregnancy. Of course there were other non-clinical impacts from the virus such as visitor limitations which resulted in lack of labor support for these women. This also prompted many of them to ask for an early discharge which meant less time for us to do discharge teaching and provide lactation support.

The editorial addressed the impact to us as healthcare providers. While large studies haven't been published regarding our challenges, we all know that we suffered PPE shortages and changes for required PPE on almost a daily basis at the beginning. We suffered our own staff illnesses and even deaths around the country. We also know that we lost many from the profession who, perhaps, found the pandemic more than they wanted to take at the current time. I believe we probably learned a lot about ourselves and our own resilience as a result of the past 16 months. Now more than ever, I personally am proud to be a Registered Nurse and to have an organization like AWHONN to turn to for guidance during challenging times.

We are hopeful to have an in-person Southern Colorado chapter meeting in the near future. If you have any ideas for topics/speakers, please let me know and we'll make it happen. Stay safe and have a great summer getting to spend time with friends and family again.

Candace Garko, MSN, CENP, RNC-OB, C-EFM

SAVE THE DATE!
CO AWHONN 2021
State Conference –
It's a New Day!

Annual conference of the Colorado Section of the Association of Women's Health, Obstetrics, and Neonatal Nurses

DATE AND TIME:

September 9, 2021 -

- Spinning Babies in AM
- AWHONN vendor reception & hot topic moderated dinner conversations in PM

September 10, 2021 -

- Conference 8-5pm

LOCATION:

Fort Collins Marriott
350 East Horsetooth
Rd.

Fort Collins, CO 80525

Group Rates Available

Register for the conference via Eventbrite:

<https://www.eventbrite.com/e/co-awhonn-2021-state-conference-its-a-new-day-tickets-145357681739>.

Join over 200 nursing colleagues from across the state for our annual event. Agenda in progress but some topics will be - Surviving an Amniotic Fluid Embolism by national speaker and survivor Stephanie Arnold - Legal Issues in Perinatal Nursing - Implementing AIM bundles - Marijuana and Breastfeeding and a Student Panel.

Meet us Thursday evening for our vendor reception, followed by moderated dinner conversations on hot topics held at local restaurants. Friday is an all-day conference with vendors, posters, keynotes | and breakout sessions.

Spinning Babies pre-conference is an **optional learning** opportunity for conference registrants at an additional cost. This course is exclusively for nurses registered for the full conference. It is limited to 36 participants.

Group rate rooms can be booked two double or one King for \$119/night through this link <https://www.marriott.com/event-reservations/reservation-link.mi?id=1606153024097&key=GRP&app=resvlink>

Reservations can be made until August 16.

Group discount (-\$10/pp) available for groups of 6 or more- contact izzi.campanella@gmail.com for this option.

Announcements!

NANN's VIRTUAL 37th Annual Conference

Conference Details

NANN's 37th Annual Conference will be held **virtually from September 13-15, 2021.**

The NANN Board of Directors was looking forward to NANN returning to a live conference this year in Denver however the ongoing COVID-19 regulations and recommendations at the federal/state/local levels made it necessary to cancel the in-person portion of the conference. In addition to these regulations and restrictions, our members are healthcare workers and many remain on the front lines of combatting the pandemic with the most vulnerable of our population. As such, hosting the conference virtually will allow all members and stakeholders to participate this year. We look forward to hosting an in-person conference in Las Vegas in 2022.

For NANN's 2021 conference, expect the same wonderful virtual experience as last year, with even more opportunities to connect, learn, and network with your neonatal nursing peers from all over the world.

Further details on the conference are to come! Keep an eye out for registration to open early this summer.

AWHONN National 2022 is coming to Denver!

Rockies Gaylord Conference Center in Aurora
June 25th-29th 2022

Announcements

Call for AWHONN Outstanding Nurse Nominations

Do you know a nurse you would love to honor and nominate for the 2021 Colorado AWHONN nurse of the year award? We'd love to hear from you!

This award is to recognize AWHONN nurses who make an outstanding impact on the health of women and newborns and their nursing profession.

Eligible Criteria:

- Current RN license
- Current AWHONN membership

Nominees are evaluated based on evidence of the following qualities:

- Vision and passion regarding health promotion of women and newborns
- Passion and commitment to the nursing profession

Procedures:

- A subcommittee of the Colorado AWHONN Section selects the award recipient
- Nominees must have at least one (no more than 3) nomination letters
- Award recipient will be notified no later than August 1, 2021

Nominations are DUE: July 1, 2021

(To nominate see attached form on next page)
